

#### **Health Outcomes**

### HEDIS - Diabetes Management: HbA1c < 8%

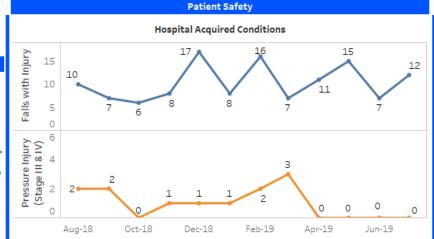

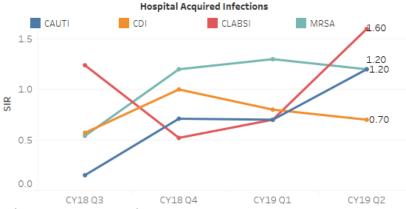

#### Core Measure - Venous Thromboembolism (VTE) Prevention

#### 30 Day Readmission Rate

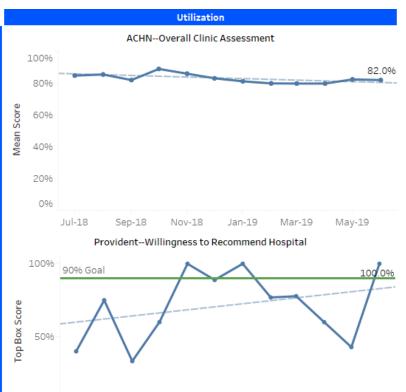

SIR (Standardized Infection Ratio) is a summary measure which compares the actual number of Healthcare Associated Infections (HAI) in a facility with the baseline data for standard population. SIR > 1.0 indicates more HAIs were observed than predicted, conversely SIR of < 1.0 indicates that fewer HAIs were observed than predicted.
